

## Our Community's 2020 Visioning Plan

"In the year 2020, Hillsboro sustains a high quality of life by actively promoting public health and safety. Residents feel safe in their homes, neighborhoods and public places. Small town neighborliness is reinforced by a commitment to community-based policing, and programs for preventive measures..."

*What are we doing to make the Vision a reality? Follow the Arrows!* ↓

### Police Reserve Specialists

**Mission:** "Through use of specialized reserve volunteers, to augment, broaden, and increase the effectiveness of the Hillsboro Police Department in its mission to protect the community."

### Tanasbourne Computer Forensics Lab

**Mission:** "Through use of expert non-sworn volunteers, to assist and augment the Hillsboro Police Department in the preservation, retrieval, and analysis of digital evidence."

**Cyber Responsibility and Ethics™**  
**Mission:** "To help kids become safe and responsible citizens of the cyber community."

*The first CARE  
Graduating Class, 4th & 5th Grade  
Indian Hills Elementary School — June 2004*

Hillsboro Police Department

### P2P — Police-to-Police

**Mission:** "Through networking and sharing of resources, and experience, to enhance technical and cyber skills among the law enforcement community."

### P2B—Police-To-Business

**Mission:** "To Provide effective outreach to the business community, to address their enforcement and security-related needs, to foster a sense of partnership, and to facilitate grass roots involvement in finding solutions to challenges facing local businesses."

### The Partnerships for Kids (P4K) mission:

"To focus the collective visions and energies of community agencies and organizations to achieve parity of opportunity among all of our children."

*PRS Jim Lewinson mentors at the Sunset Gardens Lab. The PRS built 2 Linux Labs to "Bridge the Digital Divide." 2 more Labs are planned...*

*Saturday Academy and HPD instructors teaching a basic programming and robotics course to Hispanic kids at the West Precinct Learning Center and Linux Lab*
